[1] Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will more accurately reflect the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

[2] Computed on true discount basis.

[3] Statutory debt limit, established at $285 billion by the act approved June 30, 1959, has been temporarily increased to $336 billion through June 30, 1967.

[4] Dollar equivalent of certificates issued and payable in the amount of 600,000,000 Deutsche marks, and 727,000,000 Swiss francs.

[6] Dollar equivalent of certificates issued and payable in the amount of 1,000,000,000 Deutsche marks, 735,000,000 Swiss francs, and 650,000,000 Austrian schillings.

[7] Dollar equivalent of Treasury notes issued and payable in the amount of 577,000,000 Swiss francs, 400,000,000 Deutsche marks, 650,000,000 Austrian schillings, and 78,000,000,000 Italian lire.

TAX STATUS

[f] Treasury bills are not considered capital assets under the Internal Revenue Code of 1954. The difference between the price paid for the bills and the amount actually received upon their sale or redemption at maturity for Federal income tax purposes is to be treated as an ordinary gain or loss for the taxable year in which the transaction occurs.

[g] Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code of 1954.

[h] Where these securities were issued wholly or partly in connection with advance refunding exchanges, the Secretary of the Treasury has in some instances declared, pursuant to Section 1037(a) of the Internal Revenue Code of 1954, that any gain or loss on the securities surrendered will be taken into account for Federal income tax purposes upon disposition or redemption of the (new) securities. Issues included in advance refundings with deferral of recognition of gain or loss are indicated by reference to footnote 2 in Table XI. Footnote 3 in Table XI indicates securities included in advance refundings on which the gain or loss must be treated as gain or loss for the taxable year in which the transaction occurs.
