2 Securities and Instruments are not acceptable if they are issued by the pledging institution, an affiliate of the pledging institution, or otherwise correlated with the financial condition of the pledging institution.

3 Acceptable if the obligations are "investment grade" as that term is defined in 12 CFR part 1, except that the risk of default by an obligor is very low and the pledgor has assessed the credit risk of the obligations in accordance with the due diligence requirements provided in the Office of the Comptroller of the Currency's Supervisory Guidance on Due Diligence Requirements in Determining Whether Securities are Eligible for Investment.

5 U.S. Government or Guaranteed Agencies and Government Sponsored Enterprises (GSEs) only.

6 Individually deposited loans are loans pledged via the Automated Loan Deposit System. The margin applied to an individually deposited loan is determined by the maturity and coupon of the loan.
